THY DISEASE, progressive - industrial groovers return with their long awaited album entitled "TRANSHUMANISM"

Seventh album in their discography surely determines band's musical direction. All brand new tunes contain deep, heavy, modern grooves with mind-twisting electronic samples. Heavy guitars mixed with walls of samples take the listener to the dark and gloomy future.

New LP concentrates on issues related to new technologies, humanity development, biotech upgrades, and other novelties future may bring. All of them are encompassed from moral and philosophical angle filled with questions and doubts.

With renewed line up THY DISEASE continues to spread their cold and dehumanized visions of upcoming times and this album is a clear evidence of it.

Tracklist:

1. INHUMAN FORM
2. DRONE SOUL
3. ALUMINIUM CITIES
4. BLOODY TREATMENT
5. DELIVERANCE
6. THERE'S NO YOU
7. INFRASONIC NOISES
8. CONVERGENCE
9. DIGITIZED MIND

Bonus Track:

10. EXTINCTION BY CONTRACT
